

CLEAN OUT HOLES

Reduce the time it takes for wash down with our cleanability add-on options, such as clean out holes.

Cleanability

Allows for better access to the inside of the conveyor bed.

Time Saving

Used for more effective and less time consuming wash down.

Sanitation Is A Must

Ideal for products and environments where sanitation is a very high priority.

Recommended For:

Cosmetics • Food Production • Pharmaceuticals

Completely
customizable to
fit your material
handling needs.

Cleanability is key to keeping your system in tip top shape. Span Tech's clean out holes are used when sanitation is a very high priority. They allow for better access to the inside of the conveyor bed for effectiveness and less time-consuming washdown.
