

GRAVITY TRANSFER

Non powered transfer solution providing the ideal way to move your materials.

Easy Removal

Gravity Transfers roller bridge can be easily lifted out and replaced

Options Available

Dead Plate Transfers are also available and are custom designed and fitted to your system

Easy Integration

Allows the conveyor to be placed as close as possible to integrated machinery for a smooth transfer.

Recommended For:

E-Commerce • Packaging • Distribution

Completely
customizable to
fit your material
handling needs.

Gravity roller transfers are fitting for non-powered transfer applications. The roller's small nose bar allows smaller products to be transferred flawlessly and without damage. The innovative design makes maintenance and cleaning simple.
