

# STANDARD STRAIGHT CONVEYOR

## RELIABLE, EFFICIENT AND VERSATILE CONVEYANCE

Span Tech's Standard Straight Conveyor is the backbone of any efficient production line, providing a reliable and versatile solution for transporting products from one stage to the next. Whether you're moving packaged goods, raw materials, or finished products, the Standard Straight Conveyor offers smooth, continuous operation that ensures your production process runs seamlessly.

Our standard straight conveyor is a cut above all other basic plastic chain conveyors on the market. Expertly manufactured with premium materials, it's designed to eliminate any catenary or chain take up.

## FEATURES

### COMPARED TO INDUSTRY STANDARDS

- **Smooth & Consistent Product Movement:** Engineered to provide smooth and reliable transport of products, ensuring they move consistently and without interruption.
- **Versatile Applications:** Versatile enough to be used in a wide variety of applications, from packaging and food processing to manufacturing and distribution.
- **Modular & Customizable Design:** Easy integration with existing conveyor systems and other production line equipment. This ensures a seamless fit within your current setup, helping you optimize your production layout without the need for extensive modifications.

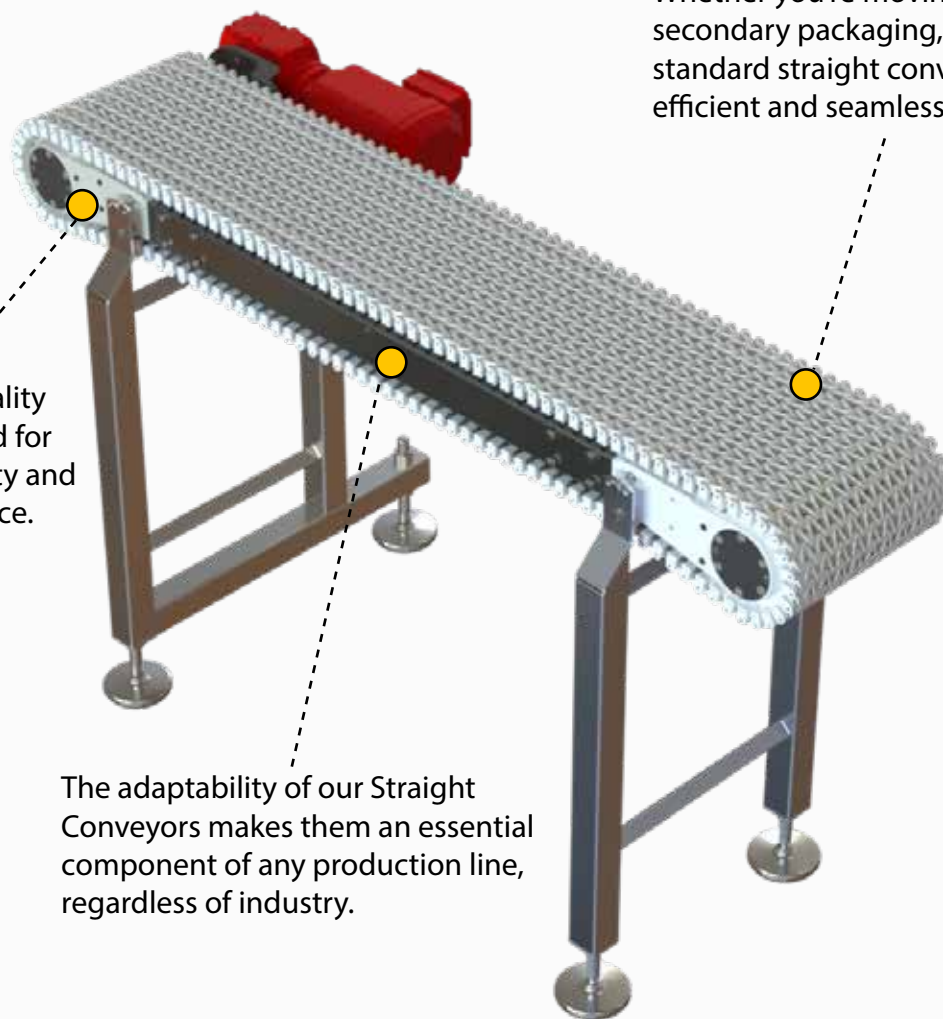

Whether you're moving primary or secondary packaging, Span Tech's standard straight conveyors ensure efficient and seamless operations.

Built with high-quality materials, designed for long-term durability and reliable performance.

The adaptability of our Straight Conveyors makes them an essential component of any production line, regardless of industry.
