

# OUTRUNNER SPIRAL

A cost effective solution for changing elevations, the Outrunner Spiral gives you the capacity to move a wide range of product types without taking up valuable floor space.

## Product Variation

The Outrunner Spiral is capable of handling a wide range of products without any adjustments.

## Small Footprint

Save floorspace by elevating with the Outrunner Spiral.

## Highly Configurable

A variable height, diameter, angle, chain width, infeed and exit location.

## High Speeds Ahead

The Outrunner Spiral has speed capabilities of up to 250 fpm.

## Catenary Free

Our chain is captured throughout the entire system which makes the Outrunner Spiral safer than the competition.

## Recommended For:

Packaging &  
Distribution

Completely customizable to fit your material handling needs.

A cost effective solution for changing elevations, the Outrunner Spiral Elevator conveyor gives you the capacity to move several product types without taking up valuable floor space. For an elevation change with a minimal footprint spiral elevators are ideal. The cost-effective, compact units are not only strong, but gentle as well. No pressure is applied to the product, so even delicate items can pass through it without damage.
