

CONVEYOR SYSTEMS FOR THE BAKING & SNACKS INDUSTRY

RIISING TO THE CHALLENGE

From the first batch of dough to the final packaged snack, every step of your process depends on precision, hygiene, and consistency.

At Span Tech, we understand the unique challenges of the baking and snack industry. Sticky doughs, delicate pastries, crumbly coatings, and tight sanitation standards. That's why our conveyors are designed to handle it all with smooth, reliable performance that keeps your line moving.

Our modular, easy-to-clean designs minimize downtime for washdowns and changeovers, while maintaining strict compliance with food safety standards. From proofing and cooling to coating, wrapping, and packaging, Span Tech conveyors deliver seamless transitions between processes to reduce product damage and waste.

Whether you're producing bread, cookies, chips, or granola bars, Span Tech conveyors are engineered to rise to the occasion. Clean, consistent, and built to last!
